

Stock management system

Jishal K. Shetkar
IBMI8CS118

The stock maintenance system will allow the employees to record information of the items available in the store and generate reports based on the total amount of sales.

The process of stock maintenance system is that the customer logs in to the particular site to place the order for the customer product. The stock maintenance system is described sequentially through steps

- The customer logs in to the particular site.
- They fill the customer details
- They place the orders for their product
- The vendor logs in and views the customer details and orders
